LOVE DOES

QUARTERLY IMPACT REPORT Q2

COVID-19 UPDATE

5,135

PEOPLE ASSISTED

Thank you for your incredible support! We have detailed all of the amazing assistance you are making possible in the following report.

We are all in this together.

UGANDA

All schools in Uganda were formally closed by the government at the end of March, and our students and staff are safely home with their families. The teachers and staff at [Restore Leadership Academy](#) have been hard at work creating a distance learning plan and curriculum. Beginning in July, our teachers will distribute packets of notes and worksheets to each of our students every month. At the end of the month, the teachers will pick up the finished packets and pass out a new set. Though we wish we could have all of our students on campus, we are so proud of our teachers and students for their innovation, resilience and determination to make the best of these uncertain times. We are cheering them all on and are hopeful for progress and good news in the coming months!

Following the nationwide lock down in March, our team in Uganda began working with the local district officials to identify and supply food aid to the most vulnerable families in the community. In total, our team distributed a 30-day supply of food to 3,260 individuals. In addition to food distribution, we supplied 270 liters of disinfectant to the local markets, prisons and hospitals.

UGANDA

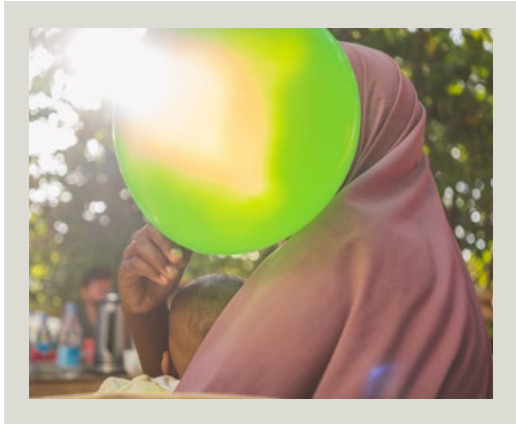

SOMALIA

The babies in our [baby home](#) and women in our safe home are all healthy and well, and have been quarantined since the start of the pandemic. We are so grateful for the careful watch and love that our caretakers and nurses provide them, especially now!

Our new Girls Leadership Academy is nearly complete, and it is beautiful! Our team has been working hard to complete all of the final touches so that it can be ready for all of the girls to arrive when schools are able to resume.

Our team has also been working with the local authorities to distribute the 287,000 meals that arrived in our last shipping container. These meals have been an amazing resource to help the local community and families in the nearby IDP camps during these tough times.

SOMALIA

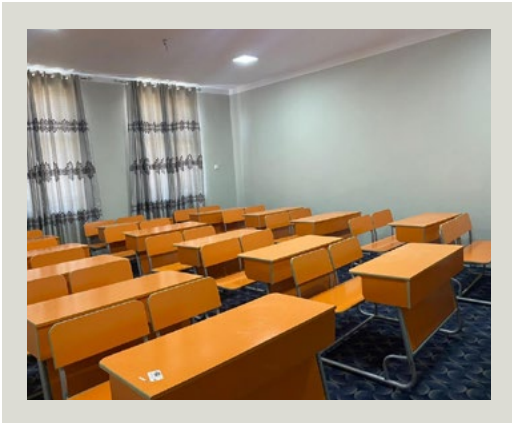

AFGHANISTAN

Our school has been closed since the nationwide lockdown began at the end of March, and our students and staff are safely at home with their families. We have a big surprise for these students when they are able to come back to school, construction of our [new school](#) just finished! We were previously renting our school building, and are so excited to now have our very own. This new school building has two levels: On the first are office spaces, a teacher room, a laboratory and kitchen, and on the top there are eight classrooms. This building is designed to allow for growth over the next few years as we add a class level each year.

While the students have been away, our teachers and staff have been working hard to furnish and supply the new building to get ready for our students return. In addition, our staff have distributed stationery and textbooks to each of the students so they can continue to progress with their studies.

Many of our student's families rely on daily wages to provide the food and care they need, and the lockdown has made it difficult for many. We have worked with our team to provide two rounds of food and supplies to all of the families at our school. We are so grateful to each of you who make this care possible when it matters most!

NEPAL

Nepal issued a nationwide lockdown at the end of March, and the girls in [our home and students at our school](#) have been home safely since. The four girls in our home are all happy and doing well. They have been keeping up with their schooling through online classes, and are all grateful to have the structure and normalcy that it brings. When they are not studying or working on school work, they can be found doing arts and crafts, learning yoga, playing games and listening to music. Their resilience and optimism has shown throughout, and we are always so proud of them!

The students at our primary school and after school program are all home with their families. We have sent each of them home with school supplies as well as food and soap for their families.

In addition to helping the families at our projects, our team has been working hard to help out in the local community. Many families rely on daily wages to provide for themselves, so we have been grateful to be able to offer some extra support and care. In total, our team has distributed food and disinfectant to 1,255 people in the community. We are so grateful to our team and to all of you who have reached out in care and support!

NEPAL

INDIA

Our friends in India have been greatly impacted by the virus, and our thoughts and hopes go out to them all for a peaceful and healthy recovery soon. We have been working with our team there to distribute packages of food and sanitizer for the students and families that attend our [after school program](#), as well as the most vulnerable families in the community.

We are so grateful for your support in making this needed support possible! We will continue to work closely with our team to help this community as it responds and recovers.

INDIA

At Home - We Stand Together.

We have worked for years overseas to fight for equality, opportunity, safety, peace and inclusion for all. We are not unaware that our own nation is facing a season of hurt, injustice and division. Just as we are committed to our projects overseas, we are also committed to doing the hard work that is needed here in our own home. We hope to continue to be a voice of love and justice, not only for our friends around the world, but also here in the United States where pain is dividing so many. We want to be part of the solution, and pray to have the courage, determination and willpower to see it through.

Our hearts at Love Does have been heavy with the news of dear lives tragically lost and a great injustice to many. Though we can not name them all, we stand in solidarity, love and support with the families, friends and communities of George Floyd, Ahmaud Arbery, Breonna Taylor, Rayshard Brooks, Elijah McClain and countless others who have lost their lives and been hurt not only during this recent time, but also in history.

Thank you for all the ways you stand for justice around the world.

THANK YOU!

Thank you for making all of this possible.
The way you bring joy and hope into the
world is incredible.
